

Future Interns - Blockchain & Cryptocurrency Internship

Task 1: Create Your Account on a Trusted Crypto Exchange

Name: Harshith Pasupuleti

Internship: Blockchain & Cryptocurrency - Future Interns

Platform Chosen: CoinSwitch Kuber

Date: November 2025

Overview:

The goal of this task was to understand how a cryptocurrency exchange operates by creating and verifying an account on a trusted platform. The task included completing KYC verification, exploring wallet features, studying market charts, and understanding trade history.

Steps Performed:

1. Registered on CoinSwitch Kuber using email/mobile number.
2. Completed KYC verification using Aadhaar and PAN.
3. Explored wallet, portfolio, and crypto market sections.
4. Observed real-time crypto prices such as BTC, ETH, and XRP.
5. Viewed transaction history and account summary.
6. Took screenshots of Wallet, Portfolio, and Market dashboards.

Key Learnings:

- Understood how centralized exchanges manage crypto assets securely.
- Learned how wallet balances, market charts, and transactions are displayed.
- Observed live market data and volatility of cryptocurrencies.
- Understood KYC and compliance mechanisms in exchanges.
- Enhanced awareness of crypto trading and account safety practices.

Outcome:

Successfully verified the account, explored various platform features, and shared the learning experience publicly on LinkedIn as part of the internship deliverables.

Note: Screenshots of the Wallet, Portfolio, and Market dashboards are attached separately as visual proof of completion.
